Internal Audit for ISO/FSSC 22000

FSSC 22000 is a food safety certification scheme based on the existing internationally recognized standard ISO 22000 and complemented by technical standards. FSSC 22000 contains additional requirements, including the Pre-Requisite Program (PRP) and procedures to control the operating conditions in food factories. This course prepares your staff to serve as ISO/FSSC 22000 Internal Auditors evaluating existing quality systems against the ISO/FSSC 22000 standard. Participants learn the details of each of steps of conducting an internal audit, but specifically how to use a process focus as required by the ISO/FSSC 22000 standard. The course includes exercise workshop session to help trainee to understand and be able to perform auditing so they can assess for continual improvement.

OBJECTIVE

- To describe the concept overview of the ISO/FSSC 22000 auditing.
- To provide knowledge on how internal audit is organized and describe how Risk-Based Thinking is applied in ISO/FSSC 22000 Internal Audits.
- To describe the guidelines of management system auditing according to ISO 19011.
- To explain the importance of customer-specific requirements in the internal audit process.
- To explain role and responsibility of the internal auditor.
