

Course code: A1145

INTERNAL AUDIT FOR ISO 45001

ISO 45001 is an international standard that specifies requirements for an occupational health and safety (OHS-MS) management system. This course prepares your staff to serve as ISO 45001 Internal Auditors evaluating existing quality systems against the ISO 45001 standard. Participants learn the details of each of steps of conducting an internal audit, but specifically how to use a process focus as required by the ISO 45001 standard. The course includes exercise workshop session to help trainee to understand and be able to perform auditing so they can assess for continual improvement.

OBJECTIVE

- To describe the concept overview of the ISO 45001 auditing.
- To provide knowledge on how internal audit is organized and describe how Risk-Based Thinking is applied in ISO 45001 Internal Audits.
- To describe the guidelines of management system auditing according to ISO 19011.
- To explain the importance of customer-specific requirements in the internal audit process.
- To explain role and responsibility of the internal auditor.
